

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF KENTUCKY UTILITIES)	
COMPANY FOR AUTHORIZATION OF CHANGES)	
IN SERVICE TERRITORY WITH BLUE GRASS)	CASE NO. 94-331
RECC, CLARK RECC, JACKSON PURCHASE ECC,)	
NOLIN RECC, AND SALT RIVER RECC)	

O R D E R

On September 2, 1994, Kentucky Utilities Company ("KU") filed its application, pursuant to KRS 278.018(6), for approval of minor changes in service territories with the following Rural Electric Cooperative Corporations ("RECC"): Blue Grass RECC, Clark RECC, Jackson Purchase ECC, Nolin RECC, and Salt River RECC. KU submitted contracts and new territorial maps with each affected utility signifying its concurrence in the changes to its respective territory. A summary of the boundary changes is set forth in Appendix A, attached hereto and incorporated herein by reference.

The proposed territorial boundary changes represent either realignments of the original service territories to conform to property lines or situations where KU's existing facilities are closer to the proposed service location than the originally designated utility. No existing customer will be reassigned to a different electric supplier as a result of the proposed territorial boundary changes.

Based on the application and being advised, the Commission finds that the proposed boundary changes will prevent wasteful

duplication of facilities, avoid unnecessary encumbering of the landscape, minimize disputes between retail electric suppliers, and provide adequate and reasonable service to all affected areas.

IT IS THEREFORE ORDERED that the boundary changes set forth in Appendix A be and they hereby are approved.

Done at Frankfort, Kentucky, this 1st day of November, 1994.
